

Zoom meeting proposed agenda

6/7/2022 icu and icare

1- Current situation

Such as: wp1. Center activities by the partner who already established the e.health centers

1.3.2, 1.4.1 and 1.4.2. dissemination and sustainability activities

Others who will purchase center equipment should send me first business plan for the centers (where, structure, what it will do, for whom and how)

2- planned post covid activities

Wp3: pilot run of one course modules of e.health and medical informatics (AI for medicine) online. Partner responsibilities to collect the training material and teaching methods as well as proposed course literature/references

Wp3: start pilot run of short term diploma to be provided by partner countries. 30 ECTS.

The participants will be registered at genoa. Majority of the courses will be online but some moments will be on site (one week in Egypt and or Lebanon).

Wp4: in service training 3 -4 days seminars in Vienne. October 2022.

WP5: Activities of wp 3 and wp4 can be considered as material for wp 5.

Wp2: Platform no budget (just staff cost)

3- **We applied for extension** but eacea needs a new workplan and task distribution from me. Our rector already signed the request of the extension

4. quality manual. You should conduct internal quality control and measure the activities you are doing for the project
